

1. Never wash anything into the gutter. Oil, paint, garden and household chemicals should NEVER be washed into the storm drain system. Use cat litter or rags to clean up spills and leaks.

2. Don't litter. Litter is the number one stormwater pollutant. Keep your community and waterways clean - Never Litter.

3. Don't over-water Water that runs off lawns can carry pesticides, herbicides, fertilizer and other garden chemicals into the storm drain system where it ends up in stormwater basins.

NO DUMPING
Protect Your Waters
